PROFESSIONAL SUMMARY

Final-year AI & ML undergraduate at East West Institute of Technology, graduating in 2027, with hands-on experience in AI/ML, computer vision, and software development. Completed an Infosys Springboard AI/ML internship and developed projects in malware detection and AI-based health advisory with 3D visualization. Seeking an AI/ML or software development internship to apply technical skills to real-world applications.

SKILLS

- **ML/AI:** Scikit-learn, NumPy, Pandas, Matplotlib, Seaborn, Prompt Engineering, Supervised Learning, Classification, Probability & Statistics, Linear Algebra, Feature Engineering, Neural Networks, Deep Learning (basics)
- **Backend:** Fast API, Flask, SQL Alchemy, REST APIs
- **Frontend:** React, TypeScript, Chart.js,
- **Databases:** PostgreSQL, Neon, SQLite
- **DevOps:** Docker, Docker Compose, Git, GitHub,
- **Languages:** Python, JavaScript, SQL,

PROJECTS

ThreatLens AI: Malware Classification & Threat Detection System

[GitHub: <https://github.com/Ravitej555/Threadlens-AI.git>] Infosys Springboard Virtual Internship | Python, FastAPI, React, Scikit-learn, TensorFlow, YARA, Docker, AWS/Azure

- Built an AI-powered malware classification and threat detection platform using static analysis, behavioral analysis, and threat intelligence workflows.
- Implemented file hashing, metadata extraction, PE header analysis, string extraction, API/import analysis, and YARA-based malware detection.
- Developed malware classification, threat prediction, and risk scoring modules to identify malware families and generate security insights. AI Code Review System.

Smart Health Advisory System Using AI with 3D Human Body Visualization

[GitHub: <https://github.com/Ravitej555/cnrproject-.git>]

Tech: React, TypeScript, Three.js, JavaScript, Vite

- Developed a web-based health advisory system that takes **AQI, symptoms, vitals, and lifestyle inputs** to provide a health risk assessment.
- Created an interactive **3D human body model** using Three.js to view organs and highlight the affected body system based on the assessment.
- Implemented a **rule-based AI risk assessment** to calculate risk scores and provide personalized health recommendations.

CERTIFICATIONS

- Microsoft AI-103 — Developing AI Apps and Agents on Azure
- Microsoft DP-800 — Administering Microsoft Fabric
- Infosys Springboard — Artificial Intelligence & Machine Learning Virtual Internship
- Deloitte (via Forage) — Deloitte Technology Job Simulation
- FlyRank.ai — Front-end AI Engineering Internship Program

EDUCATION

East West Institute of Technology, Bengaluru

B.E. Artificial Intelligence and Machine Learning | 2023 – 2027 | CGPA: 8.18 (up to 6th Semester)

ACHIEVEMENTS

- Microsoft AI-103 — Developing AI Apps and Agents on Azure — Certified
- Microsoft DP-800 — Administering Microsoft Fabric
- Infosys Springboard — Completed AI/ML Virtual Internship
- FlyRank.ai — Completed Front-end AI Engineering Internship Program
